-----  
What is a hand-held folding container system?

Take the air out of shipping and storage costs with the Hand-Held Folding Container System. To sharpen material handling efficiency, ORBIS' folding containers offer more capacity, less wasted space, reduced shipping and storage costs. They quickly assemble or collapse in only 3.8 seconds.

Why do you need a folding container?

To sharpen material handling efficiency, ORBIS' folding containers offer more capacity, less wasted space, reduced shipping and storage costs. They quickly assemble or collapse in only 3.8 seconds. Containers are an economic, environmental and efficient alternative to corrugated boxes or cases when shipping long distances.

What is a foldable container?

These foldable containers are made of high-density polyethylene (HDPE), a durable material that will protect your product throughout the duration of the container's life. These foldable containers offer key features that make using our plastic containers simple. Collapsible functionality brings significant savings on inbound freight.

Do manufacturers offer customisation options for collapsible containers?

Yes, many manufacturers provide customisation choices for collapsible containers, including those for bulk use. You can often have the option to select various sizes, colors, even have your logo printed on them. However, the accessibility of these options can differ from one manufacturer to another and may influence the cost of the containers.

Our durable, reusable totes collapse flat to save on return shipping and reclaim valued warehouse space.

Discover the material composition, technical standards, and performance specs of folding containers. Explore durable designs, load capacities, and common applications in logistics, ...
