Amsterdam, January 12, 2024 - GIGA Storage is pleased to announce the development of the Green Turtle project, a groundbreaking energy storage project with 600 MW of power and ...

Lithuania's SNG Solar is set to build a 100 MW solar plant in the port of Riga, Latvia. Upon completion, the facility will be one of the ...

As of 2025, Latvia's energy storage capacity has grown 300% since 2020, with Riga leading this charge [8]. This isn't just about keeping smartphones charged; it's about rewriting Europe's ...

Lithuania's SNG Solar is set to build a 100 MW solar plant in the port of Riga, Latvia. Upon completion, the facility will be one of the largest solar projects in the Baltics.

Riga's municipal code now mandates 2-hour storage capacity for all new solar installations over 50kW. This forward-thinking regulation created a 170% surge in local storage deployments ...

This deal marks the beginning of a major solar energy project at the port of Riga, which will include the installation of solar panels, the production and storage of renewable ...

This deal marks the beginning of a major solar energy project at the port of Riga, which will include the installation of solar panels, the ...

The plant is expected to produce about 100,000 MWh of green electricity per year. The 100 MW solar facility will be constructed on a 177.2-hectare site in Spilve Meadows, on ...

The project provides for the installation of solar panels, renewable solar electricity production and storage, as

well as hydrogen and alternative fuel production.

With a construction timeline set for five years, this ambitious plant will incorporate an extensive array of solar panels linked directly to a 110 kV power line. This infrastructure is ...

In the same year AJ Power invested over EUR6 million to deploy battery energy storage systems at its solar power plants in Valmiera, Aizkraukle, and Ilukste, enhancing grid ...

Discover how next-gen battery technologies like solid-state, sodium-ion, and flow batteries are revolutionizing solar energy storage, making solar power more reliable, scalable, and ...
