In November 2024, Utilitas Wind Ltd inaugurated Latvia's first storage battery system with a capacity of 10 MW and 20 MWh in Targale, ...

As cities like Riga embrace renewable energy solutions, photovoltaic charging piles with integrated energy storage are emerging as a game-changer for urban infrastructure. This ...

Its product line covers photovoltaic energy storage systems, outdoor energy storage power stations, smart battery packs, mobile power supplies, and high-density lithium batteries.

The project provides for the installation of solar panels, renewable solar electricity production and storage, as well as hydrogen ...

This deal marks the beginning of a major solar energy project at the port of Riga, which will include the installation of solar panels, the production and storage of renewable electricity, and ...

As we approach Q4 2025, Riga's storage capacity is projected to triple, potentially eliminating the need for one natural gas peaker plant entirely. Now that's what we call powering progress!

Amsterdam, January 12, 2024 - GIGA Storage is pleased to announce the development of the Green Turtle project, a groundbreaking energy storage project with 600 MW of power and ...

In November 2024, Utilitas Wind Ltd inaugurated Latvia's first storage battery system with a capacity of 10 MW and 20 MWh in Targale, next to the existing wind park.

That's where the Riga Pumped Hydro Energy Storage Project comes in, aiming to become Latvia's ultimate
