Discover how Sungrow Power Supply is partnering with Aljihaz Holding for a massive energy storage project in Saudi Arabia.

Taking place from 12 to 14 October 2025 at Riyadh Front, the event brings together key stakeholders in solar power, battery storage, and sustainable energy solutions.

The plan aims to deploy the first smart communities integrating solar and storage in cities like Riyadh and Jeddah by 2027, piloting ...

Saudi Arabia has a large electricity consumption base, abundant solar resources, a strong awareness of energy transition, a solid economic foundation, and robust policy ...

Key factors behind this momentum include the adoption of advanced battery storage technologies, a focus on integrating solar power into the national grid, and a growing ...

The Bisha Energy Storage Project has a capacity of 2GWh, featuring 488 advanced battery containers and a storage capacity of 500MW, capable of supplying power for ...

The plan aims to deploy the first smart communities integrating solar and storage in cities like Riyadh and Jeddah by 2027, piloting distributed storage and blockchain energy ...

Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh. Technological advancements are dramatically improving ...

The conference features 3 dynamic tracks, showcasing the latest insights and innovations across the renewable
