GoSun's compact rooftop carrier contains eleven hundred watts of solar power, enough to make around 80% of the vehicle's annual mileage. Don't tie yourself down to inconvenient public ...

DartSolar aims to bridge this gap by introducing a rooftop solar power system that can be retrofitted onto any EV, providing an alternative method for on-the-go charging.

Imagine a rooftop solar panel that's aerodynamic, weatherproof, theft-resistant, and easy to use. It opens in just 10 seconds with the same effort required to open your car door.

By opening up and unfurling the solar panels down the car's windshield, hood and trunk, the system multiplies charging power sixfold, providing a discernible in-field range boost ...

Discover how rooftop solar combined with EV charging significantly reduces long-term electricity costs, enhances energy independence, and hedges against rising utility rates ...

Imagine the freedom of charging your electric vehicle (EV) without the hassle of public charging stations or fluctuating electricity prices. The Gosun Rooftop Solar EV Charger, ...

Tesla solar makes it easy to produce clean, renewable energy for your home and to take control of your energy use. Learn more about solar.

Although a true solar-powered electric car may be many years away from mass production by any automaker, GoSun's EV Solar Charger is a big step in that direction, as it's ...

DartSolar is the world's first solar roof-rack system for electric vehicles. DartSolar is compatible with any power unit that can accept 1,000 watts of solar input.
