Investments in battery energy storage systems (BESS) is ramping up around the world and Serbia is now making its first steps.

Storage: Large-scale deployment of variable/intermittent renewable power sources--i.e., wind and solar power--make grid balancing more challenging and can ...

Andrew Higgins talked to residents of Gornje Nedeljice, Serbia, the site of a planned lithium mine, and protesters in Belgrade, the ...

Fortis Energy has secured a construction permit for a 270MW PV plant combined with a 72MWh battery energy storage system in Serbia.

As Serbia enters a period of deep market reform and diversification through LNG, the economics of storage expansion become central to its energy security, commercial ...

Battery energy storage is transforming Serbia's power system. From industrial applications to real-time energy trading, SEE ENERGY 2025 highlights how flexibility and ...

This hybrid solar and storage project represents a strategic investment aimed at enhancing grid reliability, integrating renewable energy, and reducing dependence on fossil ...

Andrew Higgins talked to residents of Gornje Nedeljice, Serbia, the site of a planned lithium mine, and protesters in Belgrade, the capital, who are opposed to the project.

Fortis Energy, a company headquartered in the Netherlands, acquired a 180 MW solar project with a battery energy storage system (BESS) in Sremska Mitrovica in the summer ...

The Serbian government has called for the development of a spatial plan for six large-scale solar plants with a cumulative capacity of 1 GW that will be colocated with two ...

By 2035, energy storage will be the defining technology of Serbia's power sector. To understand why storage will become central, it is necessary to examine the pressures ...

The Serbian government has called for the development of a spatial plan for six large-scale solar plants with a cumulative capacity of 1 ...
