Our team of certified solar professionals can help you select the perfect hybrid inverter system for your project. Get expert guidance on sizing, compatibility, and installation.

The Solis S6 Hybrid Inverter 11.4kW Single Phase Four MPPT with Tigo Transmitter delivers exceptional performance and versatility for residential and small commercial solar systems.

Overall, this inverter offers a seamless blend of power, efficiency, and smart features. It's a reliable choice for anyone wanting to run high-demand appliances without ...

This hybrid inverter can be DC-coupled to a variety of batteries, enabling a versatile off or on-grid solution. The S6 hybrid is a grid-forming inverter that supports the latest high-powered PV ...

This easily scalable hybrid inverter can be DC-coupled to a variety of batteries post-installation as well as can be paralleled to add capacity. The S6 hybrid is a grid-forming inverter that supports ...

These systems intelligently switch between solar, battery, and grid power to maximize self-consumption and keep critical loads running during outages. Our selection includes high ...

The Solis S6 is suitable for the installation of single-phase input PV system of different types; residential, commercial and industrial and adopt ultra-high switching frequency, ultra-thin ...

Solis S6 11.4kW Single Phase High Voltage Energy Storage Hybrid Inverter. The S6 (Series 6) hybrid energy storage string inverter is the latest in hybrid inverter technology, versatile and ...

The Solis S6 is suitable for the installation of single-phase input PV ...
