Smart Energy Storage Cabinet System. IP55 protection level, can withstand various climatic environments. fire protection system, anti-surge device, etc. Cabinet design, easy to transport. ...

The numbers don't lie - Tallinn's photovoltaic storage capacity grew 217% since 2022. With the EU's Carbon Border Adjustment Mechanism coming into full effect, companies adopting these ...

Whether you're seeking off-grid independence or grid-connected benefits, we provide reliable Energy Storage Solutions that ensure performance, safety, and long-term sustainability..

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly ...

Estonia, often dubbed the "Nordic Silicon Valley," has emerged as a hub for advanced energy storage technologies. With its tech-savvy workforce and supportive policies for green energy, ...

But here's the kicker - it's not just about energy storage. This project pioneers vehicle-to-grid (V2G) integration with Tallinn's electric bus fleet, creating what engineers call a "bi-directional ...

Paldiski PHS-plant is the only greenfield pumped hydro energy storage project in the northern Baltic region and will also be the largest facility in the country.

Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in Estonia.
