configurations, and innovative applications.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini power station using solar panels.

We are proud to partner with one of the leading providers of factory installed solar options for shipping containers. Learn more about the product and inquire below.
