Our proven HELIOS Solarator(TM) products are mobile, containerized renewable energy stations trusted by major corporations and government bodies on remote, regional, and urban sites.

Designed for durability and versatility, the Container-Type Substation supports capacities from 30kVA to 7000kVA and rated voltages of 10kV to 35kV, making it ideal for on-site installations ...

Our Box-Type Substation is a fully integrated, prefabricated power solution that combines a medium-voltage switchgear, transformer, and low-voltage panel in one weatherproof ...

Huaquan box-type substations, also known as prefabricated modular substations, integrate power distribution and generation functions. They support both above-ground and underground ...

View our prefabricated container substation product, which allows for mobility and rapid deployment. Join META Power Solutions online to learn more ...

Our ehouses and kiosks are compact substation modules that are designed to reduce shipping and transportation costs, and speed the uptake of renewables around the world. Combining ...

Traction power supply requires powerful, reliable, low-maintenance, compact substations. An intelligent solution for obtaining direct current quickly and economically is provided by ...

Medium voltage containerised power substations for the solar, mining, tunnelling and construction industries. Containers substation are offered as standard or bespoke packages to suit the ...

The 10~40.5kV container-type substations, with their compact structure, high environmental adaptability, and
