Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

Each unit combines high-performance lithium batteries, hybrid inverters, and MPPT charge controllers in a single outdoor ready enclosure, allowing for fast installation, minimal site ...

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini power station using solar panels.

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini ...

Detailed walk-through of the planning and installation of our 3kW - 5kWH - 120V off-grid solar system that powers a rehabbed shipping container. Use to build your own system ...

mobismart MOBIPOWER Hybrid Clean Power ContainersMOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada ...

Our line of solar transportable power units (TMSPDC® Power AnyWhere Any Time®) provides stand-alone photovoltaic power. These portable units supply AC power just about anywhere ...

Discover how Higher Wire shipping container solar systems provide reliable, off-grid power for remote

worksites and projects.

MOBIPower hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

Designed with flexibility, scalability, and technological sophistication, the LunaVault is a model of efficiency for residential, industrial, and critical infrastructure applications.

Learn about the benefits of solar container homes and how they provide reliable off-grid energy through modular energy storage, hybrid energy compatibility and rapid deployment.
