SPC1550A EVE SPC1550A Lithium-ion Battery Capacitor 3.6V/170mAh Smart Meter Automotive Electronics

The Super pulse battery capacitor (SPC) is an energy storage device with the latest and cutting-edge technologies. With SPC, We offer a power ...

This data sheet describes the mechanical design and performance of EVE SPC (Super Pulse Capacitor cell) model SPC-1550 which is used in a EVE-ES battery system.

Supercap"s operation is mainly based on electrostatic charge, however there are some special devices, like EVE Energy"s own patented SPC devices featuring chemical working principle. ...

Explore the SPC1520 EVE Super Pulse Battery Capacitor by SUNLAND, delivering high pulse discharge capability, wide operating temperature range, and reliable performance for various ...

Battery Capacitor SPC Lithium-ion battery capacitor (SPC) independently developed by EVE, is a kind of energy storage device that can supply instantaneous large current discharge in the ...

ICR, INR, NMC, LFP, primary, rechargeable, lithium ion, lithium ion phosphate, lithium manganese dioxide, lithium thionyl chloride, CR, ER, SPC, PLM module, battery, pack, rack, ...

This specification can be applied in SPC1550 Super Pulse Battery Capacitor to specify the property index, test method, quality control, points for attention, etc.

ICR, INR, NMC, LFP, primary, rechargeable, lithium ion, lithium ion phosphate, lithium manganese dioxide, lithium thionyl chloride, CR, ER, ...

The Lithium-Ion Super Pulse Capacitor (SPC) series of batteries from EVE is an energy storage device with the latest and cutting-edge technologies. With SPC, EVE offer a power solution for ...

EVE SPC battery capacitors provide strong pulse discharge, wide temperature tolerance, and excellent safety. Ideal for AMI meters, emergency devices, and industrial IoT applications.

The Super pulse battery capacitor (SPC) is an energy storage device with the latest and cutting-edge technologies. With SPC, We offer a power solution for lifespan, with high pulse current ...
