What is a solar roof?

Solar Roof is comprised of both glass solar tiles and steel roofing tiles. Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection.

Are solar roof tiles a good choice?

Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection. With a 25-year warranty, Solar Roof will continue to produce clean energy and protect your home for decades to come.

Is Sunshine a good roofing material?

Sunshine has been certified as a building material and can be used directly for roofing. It is sturdy and durable, with a lifespan that matches that of the building. The Sunshine product offers a complete replacement solution for metal tiles. Meanwhile, it's characterized with architecture aesthetic designed appearance.

What is sunstyle solar roofing?

Just as it complements modern architecture, SunStyle honors historic and traditional structures - bringing the future to the past with a fully integrated solar solution. SunStyle maximizes the potential of solar roofing from edge to edge, encompassing every angle and slope.

Transform your roof into a power source with Sunshine solar tiles. Certified for Class A fire protection, these double-layer tempered glass tiles are ...

Installing solar panels on a glass roof presents numerous advantages. One of the primary benefits is maximizing natural light within the structure, as glass roofs are designed to ...

Customize your photovoltaic glass with Onyx Solar. Choose from a wide range of colors, sizes, transparency levels, and shapes to meet your aesthetic and energy needs.

Sunparadise CUBO SOLAR can be custom built to your specifications just to turn your outdoor living space

into a ...

A solar glass roof integrates photovoltaic technology into the actual roofing material, providing both protection for the building and the ability to generate electricity from ...

Transform your roof into a power source with Sunshine solar tiles. Certified for Class A fire protection, these double-layer tempered glass tiles are easy to install and blend seamlessly, ...

Crafted with heat-treated safety glass, our photovoltaic glass provides the same thermal and sound insulation as traditional options, flooding spaces with natural light. Perfect for fa&#231;ades, ...

SunStyle maximizes the potential of solar roofing from edge to edge, encompassing every angle and slope. This, coupled with premium photovoltaic cells, delivers higher solar efficiency in ...

Solar Roof is comprised of both glass solar tiles and steel roofing tiles. Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your ...

All tiles are made from structured solar glass, optimised for light transmission and consistent colour perception from different viewing angles. In addition ...

All tiles are made from structured solar glass, optimised for light transmission and consistent colour perception from different viewing angles. In addition to the signature diamond-shaped ...

Featuring improved roof ventilation and heat dissipation, as well as fast installation, the Sunshine tiles can not only improve solar power generation efficiency, but also help households lower ...
