This ambitious endeavor transforms a standard 20-foot shipping container into a high-capacity, modular, and off-grid power system capable of supporting diverse energy needs.

We sell New/One-Trip, Wind and Watertight (WWT) and Cargo Worthy (CW) containers that all adhere to ISO standards, ensuring your belongings are well-protected.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Interport's shipping containers can be fully customized with a wide variety of modification options, depending on your power generation source and battery storage needs.

We are proud to partner with one of the leading providers of factory installed solar options for shipping containers. Learn more about the product and inquire below.

The Bluesun 20-foot BESS Container is a powerful energy storage solution featuring battery status monitoring, event logging, dynamic balancing, and advanced protection systems. It also ...
