What are solar tiles made of?

Our solar tiles are manufactured with the highest quality PERC monocrystalline photovoltaic cells to maximize the efficiency of your roof. SunStyle ® is a structural roof and solar module combined, providing a durable, leak-proof roofing solution that is both beautiful and protective.

What are freesuns solar tiles?

Designed in Switzerland and individually hand-crafted to the highest industry quality standards, Freesuns solar tiles have been developed to last. As a result, they are more robust than normal roof tiles and much stronger than ordinary solar panels. Our tiles can be adapted to any roof with variations in shape, colour, and size.

Are solar roof tiles a good choice?

Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection. With a 25-year warranty, Solar Roof will continue to produce clean energy and protect your home for decades to come.

Are solar tiles durable?

Solar tiles are more durable than most standard roofing materials, even in harsh weather conditions like hail, snow, and high wind. We have projects built in a range of climates, from the Swiss Alps to Silicon Valley. Our roof is Class A fire-rated to keep you and your family safe, and we guarantee our tile for 25 years.
