Does Zurich insure photovoltaic systems & solar thermal installations?

Zurich insures photovoltaic systems and solar thermal installations along with their respective components. The insurance package covers damage caused by storms, hail, lightning strikes, but also to material or construction defects and even loss of feed-in remuneration.

What insurance does Zurich cover?

Insurance covers the new replacement value for modules/collectors during the first ten years of operation. Zurich covers any loss of earnings from photovoltaic systems (loss of feed-in remuneration when equipment fails) and the additional costs of solar thermal installations (for the provisional supply of heat).

Does Zurich insure geothermal heat exchangers?

Zurich insures geothermal heat exchangers (e.g. geothermal probes) and heat pumps including any corresponding systems. Damage caused by technical defects, fire, storms, hail, and outages is all covered here. You can tailor the insurance coverage to your individual needs. Why should you insure your solar installation?
