Will the Vatican transition to solar energy in 2024?

Nearly one year has passed since Pope Francis revealed his plan for the Vatican state to transition to solar energy as its main power source, as outlined in the 2024 motu proprio *Fratello Sole*, or "Brother Sun."

Will a Vatican Radio station be installed in 2025?

The future installation would be projected to "ensure, not only the power supply of the radio station existing there, but also the complete energy support of Vatican City State," he wrote. Fast forward to 2025, and the project is completed.

Does Vatican City have solar power?

Yes. Vatican City has joined Albania, Bhutan, Nepal, Paraguay, Iceland, Ethiopia and the Democratic Republic of Congo to become one of just eight countries in the world to generate 100% of its electricity from renewable sources. Several church organizations around the world are making the move to solar.

Why is Maasin Diocese installing solar panels?

The Maasin diocese was recognized as the first in the world to equip its churches with solar panels. By installing solar panels in our 42 parish churches, the diocese will try to avoid 191 metric tons of carbon dioxide emissions over the next 25 years through the generation of solar power.

As part of his visit to Santa Maria di Galeria, a Vatican extra territory outside of Rome, Leo had the opportunity to examine the project site being studied for an "agrivoltaic ...
