Asia is rapidly scaling energy storage to support its clean energy future, with policy shifts, projects, and partnerships driving regional transformation. As the global shift toward ...

Chinese battery supplier Weiheng Ecactus has introduced a new three-phase high-voltage hybrid all-in-one battery energy storage ...

With the reduction of energy storage cost and the increase of new energy installation, the installed capacity of energy storage is ramping up. ...

As we approach Q4 2025, over 35% of new installations are expected to feature AI-optimized inverters. The question isn't if you'll need a smart storage system, but which North Asian brand ...

Toshiba of Japan unveiled the world's first liquid-cooled AI inverter, designed for high-temperature environments, and secured a large order for a Southeast Asian data center ...

The Asian continent is experiencing a surge in the development and implementation of energy storage solutions, which are ...

Four original case studies of solar power inverter systems with lithium batteries deployed in Southeast Asia--design choices, performance insights, and how storage cuts ...

Chinese battery supplier Weiheng Ecactus has introduced a new three-phase high-voltage hybrid all-in-one battery energy storage system (BESS). Dubbed the Agave TH, the ...

Clean energy innovations are breaking records, but investments in grid and energy storage systems are critical

What is the Asian Energy Storage Inverter
