Where will 5G testing be conducted in Ukraine?

The first pilot 5G tests in Ukraine will be conducted in Lviv, Kharkiv, and Borodianka. On Aug. 14, Ukraine's Cabinet of Ministers of Ukraine officially added Kharkiv and Borodianka to the list of pilot locations, joining Lviv, which had previously been named the country's first city for 5G testing.

When will 5G be implemented in Ukraine?

On November 1, 2024, Minister of Digital Transformation Mykhailo Fedorov announced that the Cabinet of Ministers had adopted amendments to the resolution on radio frequency use, enabling the implementation of 5G in Ukraine. Lviv was the first city to test the 5G network in Ukraine.

Will Huawei test 5G radio technology in Ukraine?

In particular, Huawei Ukraine will conduct tests of International Mobile Telecommunications (IMT) radio technology with the 5G base standard in Kropyvnytskyi and Ivano-Frankivsk. During the tests, the company plans to use Huawei-branded DBS5900 model test base stations with RRU5818 model remote radio units.

Who is testing 5G NR technology?

The National Commission for the Regulation of Electronic Communications and Postal Services (NCCS) has granted permits to Huawei Ukraine LLC and Nokia Solutions and Networks Ukraine LLC to test 5G NR technology. This was reported on the regulator's website following a meeting on May 14.
