---

The global battery industry has been gaining momentum over the last few years, and investments in battery storage and power grids surpassed 450 billion U.S. dollars in 2024.

Deployed global capacity for the first half of 2025 culminates to 86.7 GWh of battery energy storage system (BESS) capacity, representing a year-on-year increase of 54%.

Breakthroughs in battery technology are transforming the global energy landscape, fueling the transition to clean energy and reshaping industries from transportation to utilities.

The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's two largest markets, the US and China, ...

Deployed global capacity for the first half of 2025 culminates to 86.7 GWh of battery energy storage system (BESS) capacity, ...

Regions with the largest expected growth in energy storage capacity by 2030 include Latin America (+1,374%), the Middle East (+1,147%), and the Asia-Pacific (+778%), ...

Governments are boosting policy support for battery storage with more targets, financial subsidies and reforms to improve market access. Global investment in EV batteries has surged eightfold ...

The global battery industry has been gaining momentum over the last few years, and investments in battery storage and power grids ...

Based on projections, capacity is expected to touch 970 GW by 2030, which is almost 35 times bigger than the 2022. According to BloombergNEF, 2025 alone could see 94 ...

Recent innovations in battery chemistry, from advanced lithium-ion to emerging solutions such as solid-state batteries and hydrogen storage systems, are pushing the ...

Since battery storage plants require no deliveries of fuel, are compact compared to generating stations and have no chimneys or large cooling systems, they can be rapidly installed and ...

These next-generation batteries could be pivotal for everything from electric vehicles to grid storage and even electric aviation. This infographic ranks countries by their ...
